

BLACKWELL ASSOCIATES

Information about the Consent Forms and Medical Confidentiality

There are two consent forms, which you must complete:-

Consent Form 1 allows Blackwell Associates to request a summary of your occupational health record from the Occupational Health and Welfare Unit at Seapark. This is essential to progressing your assessment.

Consent Form 2 must also be completed. This allows Blackwell Associates to ask for medical information, which they may need, from your own General Practitioner or Specialist.

To reduce unnecessary delay to your assessment it is essential that you return the consent forms *as soon as possible* to the Northern Ireland Policing Board.

NB all medical information provided to the Selected Medical Advisor (Blackwell Associates) remains entirely confidential as part of your clinical record.
