

Capita Health Solutions

Information About the Consent Forms and Medical Confidentiality

There are 2 consent forms, which you must complete.

Consent Form 1 allows Capita Health Solutions to request a summary of your occupational health record from the Occupational Health and Welfare Unit at Seapark. This is essential to progressing your assessment.

Consent Form 2 must also be completed. This allows Capita Health Solutions to receive medical information, which they may require, from your General Practitioner or Specialist.

To reduce unnecessary delay to your assessment, please return your consent forms *as soon as possible* to the Northern Ireland Policing Board.

NB All medical information provided to the Medical Advisor (Capita Health Solutions) remains entirely confidential as part of your clinical record.
