INTRODUCTION BY THE CHAIRMAN

I am pleased to present this, the second Corporate Plan of the Northern Ireland Policing Board which sets out the strategic direction and work programme for the Board over the next 3 years.

The past 3 years has seen significant changes to the policing architecture of Northern Ireland and the delivery of a major change programme within the Police Service of Northern Ireland (PSNI) within a very short space of time. With the policing change programme came numerous challenges. When drawing up the work programme for the next 3 years, considerable thought has been given to lessons learnt in the early life of the Board which may have bearing on future work, the many new challenges ahead and issues likely to have a major impact on policing.

In developing the Plan, the Board has taken the opportunity to critically examine and assess all areas of its work in order to make sure that the processes, practices and organisational structure will allow the Board's statutory responsibilities to be fully delivered.

As a public service, the Board is accountable to the wider community and it is the Board's job to deliver an effective service in all that it does. Supporting the police towards the ends of effective, efficient and impartial policing and holding the Chief Constable to

account for the delivery of those ends will assist in gaining the confidence of the whole community. Since that is the twofold role of the Board it is therefore appropriate that the strategic focus of this new plan is centred around the 3 key areas of - Effectiveness, Efficiency and Public Confidence.

In delivering the objectives, performance indicators and targets set in this plan the Board remains committed to meeting the statutory responsibilities set for it and to ensure that the core values set out in this plan are fully integrated in all that it does.

Professor Desmond Rea
Chairman
Northern Ireland Policing Board

INTRODUCTION BY THE CHIEF EXECUTIVE

As Chief Executive of the Northern Ireland Policing Board, it is my job to oversee and manage the delivery of the objectives and targets set out in the Corporate Plan during the period 1st April 2005-31 March 2008.

The first Corporate Plan published has served the Board well and since my appointment as Chief Executive in January 2004 I have been assessing performance against initial targets set. There is no doubt that a substantial work programme has been delivered during the life of the first plan which provides a firm foundation on which to move forward.

The new Plan, which has been developed by the Board's Senior Management Team in full consultation with Board Members, Board staff and other interested stakeholders, therefore takes account of work to date and provides for new challenges ahead.

The objectives and targets set will provide strategic focus for work of the organisation over the next 3 years and are designed to make sure that all of the Board's current statutory responsibilities will be met. Each year, performance will be reviewed and a report on progress against achieving the objectives of the Corporate Plan will be published in the Board's Annual Report.

In order to meet the objectives set, I am responsible for leading a 60 strong team of staff who support Board Members and facilitate the smooth running of the Board. Each Director in the Senior Management

Team will also be responsible for developing and implementing annual work programmes to facilitate the delivery of the Corporate Plan.

As the Board's accounting officer, I must also make sure that the funds available to the Board are used in line with public spending and accounting guidelines. Pressure on the budget in the next few years, and a more general pressure on public services to deliver more from less resources, means effectiveness and efficiency must be further incorporated into all aspects of our work. This means ensuring that effective structures, processes and practice for delivering value for money and improving service delivery must underpin all that we do. Developing a culture of continuous improvement in exercising the functions of the Board and in overseeing the work of the PSNI is also a priority over the life of the Plan.

In anticipation I would express appreciation to the Board's staff in supporting the Board in achieving the challenging objectives set for the years ahead.

Trevor Reaney
Chief Executive
Northern Ireland Policing Board

PURPOSE AND CORE VALUES

STATEMENT OF PURPOSE

To secure an effective and efficient Police Service which gains the confidence of the whole community in policing.

OUR CORE VALUES

We are:

Accountable

The Board is accountable to the people of Northern Ireland. It will measure public satisfaction with work undertaken on an annual basis, as well as reporting performance achieved against targets set in its Annual Plan.

Accessible

The Board will be accessible to the Northern Ireland community. It will ensure that at least 8 meetings are held each year with the Chief Constable, these will be open to the public and 2 of the meetings will be held outside of the Belfast area. Details of these meetings will be published in the local press in advance, with minutes of the meeting subsequently placed on the Board's website.

Impartial

The Board will undertake its duties in a way that is free from bias or inequality.

Independent

The Board acts independently of the PSNI and Government. In its monitoring of policing matters, the Board will be independent, objective and balanced.

Responsive

The Board will be responsive to community views regarding policing matters. It will regularly assess public opinion on the adequacy of the policing services provided, and through the operation of DPPs will ensure that community priorities are reflected in the Annual Policing Plan.

We have:

Integrity

The Board will aim to act with integrity in all of its dealings with the PSNI, other statutory and voluntary agencies and the community.

Respect

The Board will ensure that, in all of its dealings with the PSNI, other statutory and voluntary agencies and the community, it shows respect for the individuals concerned.

We work:

In Partnership

The Board will seek to foster the development of partnership arrangements with the PSNI, Police and Civilian Staff Associations, Government and voluntary agencies and with the community. It will actively seek community views on the effectiveness and efficiency of the PSNI, the operation of the Board and DPPs.

THE CHALLENGES AHEAD

Moving into the second three year Corporate Planning period, many of the challenges facing the Board during the first three years of its existence remain. However, as expected new challenges have surfaced and the Board has examined both the old and new challenges in setting its Corporate objectives for the next three year period.

The main challenges facing the Board in the next three years relate to:

Devolution of Policing

Should the transfer of responsibility for policing matters take place during the life of this Corporate Plan, then Members of the Board will work with other interested parties to resolve any issues arising as a result of this change and will strive to maintain an effective and efficient Police Service.

Reconstitution of the Board

The Board is currently constituted on the basis of the original Northern Ireland Assembly elections in 1999. If devolution is restored within the period of this plan then the Board will be reconstituted in line with the current membership of the Assembly.

Review of Public Administration

The Government is currently undertaking a review of public administration within Northern Ireland. A major part of this review relates to the administration of local government and how this is structured. The Board has a close working relationship with the 26 DPPs which are established on local government boundaries. Any change to the organisation of local government in Northern Ireland will also impact on DPPs and District Command Units (DCUs). Should any change take place during the life of this Corporate Plan then the Board will work with Government, District Councils and PSNI to review and reorganise DPPs and DCUs.

Gershon Efficiency Review

The Gershon Review has set clear efficiency targets across the public sector. The Board is required to meet the target of 7.5% efficiency savings across the three year period to 2007/08. The purpose of the review is to release resources from back office

functions to front line services.

Due to the nature and work the Board carries out, all of its functions are designated as support functions and therefore the challenge to achieve these efficiency savings applies to all areas of the Board.

National Police Reform

The Government published a White Paper in November 2004 on Police Reform in England and Wales. The paper is titled "Building Communities, Beating Crime – A better police service for the 21st Century". The White Paper applies only to England and Wales, however the Board will consider any issues coming from the paper which may be of value for Northern Ireland.

Freedom of Information

The Freedom of Information Act 2000 gives a general right of access to all types of "recorded" information held by the Board. Subject to the exemptions, any person who makes a request for information, must be informed whether the Board holds that information and if so, that information must be supplied. The Board must also maintain its "Publication Scheme" which publishes the different classes of information it holds.

Oversight Commissioner

The Oversight Commissioner's term of office has been extended to 31st May 2007. The Board will continue to work along with the oversight mechanism and consider further changes as they arise.

CORPORATE OBJECTIVES 2005-2008

The Board has developed three overarching Corporate Objectives that will allow it to address the strategic challenges it faces in the next three years.

The three Objectives have been developed to reflect the direction the Board intends to take in the period covered by this plan.

Encouraging public confidence in policing in Northern Ireland is seen as a primary objective and the Board will seek to further this in the next three years, by developing and implementing appropriate planning and monitoring frameworks to ensure accountability and the delivery of effective and efficient policing. The effectiveness of the PSNI will be enhanced by the Board ensuring that PSNI has the necessary resources to deliver an effective Police Service and that the best use is made of those resources. The Board considers that the community has an important role to play in policing and will strive to promote and sustain community participation in local policing, notably through the DPPs. The objectives will be progressed through obtaining and using efficiently the resources needed to support the Board in carrying out its duties.

Performance Indicators

A Business Plan covering the work of each Directorate and Branch within the Board will be developed on an annual basis. The Business Plans will set detailed objectives and associated performance indicators which will assist in the measurement of the achievement of that particular objective. Taken together, the detailed objectives and performance indicators will assist in the achievement of the Corporate Objectives.
