The 5-star open data rating measures how well data is integrated into the web. Each rating is explained as follows:

The exact release date will be updated/confirmed at least 4 weeks before

publication where possible.

- ★☆☆☆ Available on the web under an open licence. Data is visible, licensed for reuse, but requires effort to do so.
- ★★☆☆ Available as structured data, for example, Excel table rather than a scan. Data is visible, licensed, easy to reuse but not by everyone.
- ★★★☆☆ Available in non-proprietary formats, for example, CSV instead of Excel. Data is visible and easy to reuse by all (not restricted to using specific software).
- **** Data has a Uniform Resource Identifier (URI) allowing for things like bookmarking and linking. Data is visible, easy to use and described in a standard fashion.
- **** Linked data that is comparable. Data is visible, easy to use, described in standard fashion and meaning is clarified by being linked to a common definition.
